December 16, 2015

Dear Course Provider:

The New Jersey Department of Environmental Protection has contracted with the American Association of Radon Scientists and Technologists (AARST) National Radon Proficiency Program (NRPP) to write and administer a new exam series. In addition to developing and administering the exams, responsibility for the review and approval of all initial and continuing education courses will be transferred to AARST-NRPP.

As a result, New Jersey will no longer accept new initial or continuing education training courses for review and approval. Training course providers should submit all new courses to AARST-NRPP for its review and approval. Information regarding AARST-NRPP training course submissions and the cost of review can be found on the AARST-NRPP website at http://www.nrpp.info/.

On April 1, 2016, New Jersey-approved initial and continuing education courses will no longer be acceptable. All courses will need to receive AARST-NRPP approval in order for the training to be presented after this date. If a training course was already approved by AARST-NRPP before April 1, 2016, the course does not need to be approved by AARST-NRPP again. If a training course is not approved by AARST-NRPP, the training course must be AARST-NRPP approved in order to provide training after this date.

Please feel free to contact me at (609) 984-5425 if you have any questions.

Sincerely yours,

Anita Kopera, Supervisor
Radon Section
