**Construction
& Inspections**

**Are you a real estate pro searching for
the perfect home inspector?**

Here's why I stand out from the rest.

• Quality. Value. Care.

DG Construction & Inspections has been providing top-quality home inspections since 2008. Our clients—and yours—require attention, care and superior service, and that's what we offer.

As part of our outstanding service, we stay on top of the latest technology. All of our home and insurance inspections are conducted on-site using an Android tablet and specific, tablet-based inspection applications. This means that, once I leave the home, the entire inspection is 100% completed, and my easy-to-read report will be waiting for you in your email inbox.

I provide quality service because I value your business, and I care about our clientele.

• Professional Certifications

- InterNACHI-Certified Professional Inspector®
- Florida-Licensed Residential Contractor with experience in building, remodeling and repairing residential properties
- U.S. Career Institute's Home Inspection Program

• Easy-to-Read Inspection Reports

I pride myself in generating inspection reports that are easy to read and comprehend. I don't use industry jargon or construction-specific terminology. I want you to clearly understand the condition of the property, so I am always available after the inspection to review your report with you and answer any questions you may have.

• Meeting All Your Inspection Needs

DC Construction and Inspections provides a comprehensive offering of various services, including Standard Home Inspections, 4-Point Insurance Inspections, Wind Mitigation Inspections, Roof Inspections, Sinkhole Inspections and Chinese Drywall Inspections. Our full list of services and a detailed description of each can be found on our website.

• Helping You Maximize Your Time

Everyone's time is valuable. A typical home inspection may take up to three hours. If you elect to be present for the entire inspection, we provide 3G wireless hotspot connectivity with free Internet access and a tablet PC so you can check your email. We want you to make the most of your work day.
