State of Kansas

Home Inspectors Registration Board

**Notice of Hearing on Proposed
Administrative Regulations**

A public hearing will be conducted at 1 p.m. Friday, November 6, in the basement auditorium of the Docking State Office Building, 915 S.W. Harrison, Topeka, to consider the adoption of the following proposed regulations as permanent regulations of the Kansas Home Inspectors Registration Board.

This 60-day notice of the public hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments to the Kansas Home Inspection Registration Board, 610 Rivera, Mulvane, 67110. Written comments must be

received at or prior to the hearing. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes. A summary of the proposed regulations and their economic impact follows:

Article 1.—Registration, Renewal, and Examination

K.A.R. 130-1-1. This proposed regulation establishes the information that an applicant for initial registration must provide to the board.

K.A.R. 130-1-4. This proposed regulation establishes the annual expiration dates of registration.

K.A.R. 130-1-5. This proposed regulation establishes documentation, education and examination requirements for reinstatement.

Article 2.—Fees

K.A.R. 130-2-1. This proposed regulation establishes fees authorized by statute.

Article 3.—Educational Programs

K.A.R. 130-3-1. This proposed regulation establishes the standards and core curriculum that an educational program must meet in order to be approved by the board.

Article 5.—Continuing Education

K.A.R. 130-5-1. This proposed regulation establishes the standards for approval of continuing education courses.

K.A.R. 130-5-2. This proposed regulation establishes the requirements continuing education providers must meet in order to be approved by the board.

The proposed regulations have an economic impact on individuals who desire to perform home inspections in Kansas and on educational programs and continuing education providers that do not meet the standards for approval. The impact on those who are qualified for registration is limited to the fees charged for the initial and annual renewal of a registration. The impact on educational programs and continuing education providers to meet the standards for approval cannot reasonably be calculated.

Copies of the proposed regulations and economic impact statement may be obtained by sending a request to the Kansas Home Inspection Registration Board, 610 Rivera, Mulvane, 67110, or may be viewed at www.ksinspectors.org.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting the Kansas Home Inspection Registration Board at the contact information above.
