**It looks like the home of their dreams...**

**Or is it? New windows, a few coats of  
fresh paint, new carpeting and some  
drywall, cant hide what you'll find in a  
Property Fax Report!**

**Help Your Customers get all the Facts  
BEFORE they buy.**

As it is a useful tool for potential home owners, a Property Fax Report is an equally valuable tool for home inspectors, it can assist in inspecting a home... For example: if a Property Fax report shows a claim for flood damage then you will know to check for mold damage, thus providing your customers with piece of mind.

The information contained in a Property Fax Report highlights possible damage from previous claims ensuring there are no hidden problems . . . things like fire, flood, mold, smoke, water or wind related damage.

Purchasing a home is one of the largest investments most consumers will ever make. By using a Property Fax report you are ensuring they will avoid costly repairs from hidden damages and it will make your job a lot easier if you already know what to look for!

**Property Fax Reports • Property Comps Report • Property Details Reports**
