The Midwest Universities Radon Consortium (MURC) is pleased to offer the latest research-based Radon Measurement and Mitigation Courses and National Proficiency Examinations. MURC's 20 years as **the leading U.S. Environmental Protection Agency founded Regional Radon Training Center** offers you the **best practical research-based preparation for success** in radon measurement and mitigation.

Our courses and examinations are **tailored to home inspectors, public health professionals, contractors, and others** interested in providing radon measurement and mitigation services to clients. Our courses **satisfy the States of Ohio's and Indiana's licensing requirements and both NEHA-NRPP and NRSB certification requirements**
