Course Details

Thursday March 2, 2006

Title: Inspecting the Radon Mitigation System with Home Inspection

ID#: NEHA - NRPP-12 Credit hours: 8

Type: Classroom

Applicable to: Residential Measurement and Mitigation credentials

Description: This course provides information about properly installed radon mitigation systems, along with an overview of radon, radon entry and behavior, standard radon mitigation methods, a radon ASHI checklist and communication with the client.

Format: Four-hour classroom and four-hour field activities

Friday March 3, 2006

Title: Advanced Diagnostics & System Design Training

ID#: NEHA - NRPP-17

Credit hours: 8 Type: Classroom

Applicable to: Residential Measurement and Mitigation credentials

Description: Employing a combination of slides, lecture and hands-on demonstrations, this course treats ASD systems as air-handling systems and used the principles of that discipline in a method for ASD diagnostics and system design entailing field measurement and calculation of system resistance characteristics, graphic representation thereof, and selection of system components based on predictable performance of those components..

Format: Illustrated book. Exam administered at conclusion of course.

Workshop Location

Rm 1054 1st floor

Johnson County Administration Building

111 S. Cherry

Olathe, KS

The County Administration Building is located just south of the Johnson County Courthouse. Look for the red brick building with the clock tower, approximately two miles west of I-35 and one block south of the intersection of Santa Fe and Cherry.

Parking is best in the garage located to the southeast of the Administration Building.
