

2009 ACI Home Performance Conference

April 27 – May 1, 2009

Kansas City, Missouri

HOUSE AS A SYSTEM

Advancing Home Performance

www.affordablecomfort.org

Check out these Special Events & Sessions

Monday, April 27

Full Day (Special Sessions)

National Home Performance with ENERGY STAR® Symposium

8:00 AM – 5:30 PM

6th Consecutive Year

Home Performance with ENERGY STAR (HPwES) links ENERGY STAR to comprehensive, building science based home improvement services. This symposium will discuss sponsor deployment strategies and national implementation issues for both new and mature HPwES programs, and is specifically for HPwES program participants and potential program sponsors. Interest in our energy efficiency industry is peaking, and with HPwES being the recognized national program, you do not want to miss this opportunity to either grow your existing program or learn the ropes on how to start one. Check the ACI website for an updated agenda.

Registration: \$75 per person

Healthy Homes Specialist Certification Course & Exam

8:00 AM – 5:30 PM

The Healthy Homes Specialist Credential recognizes health and housing professionals who have the qualifications, knowledge, and experience to assess a home for health hazards and identify approaches to address those hazards. The credential is a joint project of the National Center for Healthy Housing and the National Environmental Health Association.

ACI has arranged for NCHH to offer a one-day training session to prepare housing professionals to take the exam. NCHH will offer the exam and an exercise at the end of the training. See www.healthyhometraining.org/Credential for more information.

Registration: \$75 per person, discounted from the standard rate of \$205 per person

Tuesday Morning, April 28

7:00 AM – 8:00 AM

Newcomer's Welcome Breakfast & Orientation Session

New to the conference? Bring your program book and join ACI enthusiasts for a light breakfast, valuable information, and how to get the most out of your conference experience.

Tuesday, April 28, & Wednesday, April 29

Jazz, Blues, & Barbeque Tour

The Jazz, Blues, & BBQ Tour is back at AC / KC '09! Several of the original BBQ restaurants and night clubs will be back on the tour again and some new ones will be added. As veterans of AC / KC '03 will remember, the JB&BBQ Tour provided safe, reliable, and timely bus transportation (every 15 to 20 minutes) to local KC BBQ restaurants. Sample the best BBQ in the world and enjoy some of the most interesting local nightclubs. Get a taste of the great jazz, blues, and rock & roll music that has made Kansas City famous.

Tuesday Evening, April 28

7:00 PM

Update: Thousand Home Challenge

The goal of the Thousand Home Challenge is to demonstrate the potential to reduce energy use in existing homes by 70 to 90% across

North America. Learn about this initiative and its focus on fostering local solutions and regional networks including the NorCal (Northern California) Collaborative. Find out how you can get involved in the pilot phase, and explore the potential for synergy with your current projects.

Tuesday Evening, April 28

7:00 PM

Home Performance Media Forum

With increasing pressure from the Internet and mobile media, it's time for business and trade publishers to reexamine our assumptions about how to serve the information, marketing, and education needs of home performance professionals and trainees. Learn about new training and media initiatives that can develop your skills and workforce while helping you sell your services and products. Participate in brainstorming a new media agenda for home performance publishers and online educators.

Wednesday Evening, April 29

7:00 PM

Why LEED® Buildings Use More Energy than Comparable Buildings and How Serious Practitioners Can Avoid the Same Results (Where LEED is Not Yet Required by Law)

Why do architects and engineers with decades of experience take orders from someone with a professional certification that can be earned in 8 hours? Who benefits from the public's faith in LEED, and who is harmed by it? Henry Gifford's first time in a room full of energy geeks was at an Affordable Comfort conference years ago, and since then he has worked on buildings that are so energy efficient he gives out copies of the utility bills at tours of the buildings. When the claims about LEED buildings saving energy came out he did some investigating. He will tell you how he learned the truth about how much extra energy LEED buildings use (on average), and what the reaction has been.

Wednesday Evening, April 29

7:00 PM

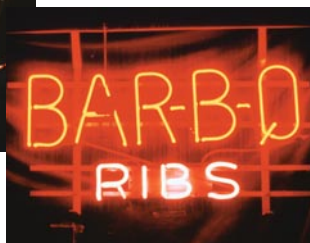

Game Changing Innovations Affecting Residential Energy Use

Explore the innovations that have the potential to rock the world of residential energy use in North America. What is coming down the pike that will transform the way our homes perform and meet our needs? How could these innovations affect the work that we do and impact our energy future, the environment, and the economy? This discussion will cover that gamut - from widgets to feedback systems.

Live jazz can be heard nightly at clubs around town. Photos Courtesy of the Kansas City Convention & Visitors Association.

Kansas City's world famous barbecue is available at more than 100 area restaurants.

For information on session descriptions, presenter biographies, and more, visit www.affordablecomfort.org.

Logistics Information

Conference Location & Lodging

Hyatt Regency Crown Center
2345 McGee Street
Kansas City, MO 64108

Hotel Reservations

The group rate starts at \$149, plus applicable tax (currently 15.225%) in effect at time of check-in. Reserve your room by calling **816-421-1234**. Mention "ACI Home Performance Conference" when making your reservations to receive the discounted rate. Conference hotel rate expires **March 20, 2009**. For driving directions, please contact the hotel.

Parking

Hyatt Regency Crown Center provides valet parking: short term is \$9 per day and overnight is \$17. The hotel also provides self-parking: overnight is \$13.50 per day, banquet validation is \$4 for 3 hours, and early bird (in before 10:00 AM and out the same day) is \$7. (Rates are subject to change.)

Transportation

Kansas City International Airport (MCI):

The hotel is about 20 miles from the airport.

Rail Service:

Save Money and Reduce Your Environmental Impact by a Factor of 10
Amtrak will offer a 10% discount off the lowest available rail fare to Kansas City, MO, during April 24 through May 4, 2009. To book your reservation, call Amtrak at **1-800-872-7245** and mention the Convention Fare Code **X38T-940** to receive the discount. Note: this discount cannot be applied to reservations booked via Internet. This offer is not valid on the Auto Train and Acela Service. Fare is valid on Amtrak Regional for all departures seven days a week, except for holiday blackouts. Offer valid with Sleepers, Business Class, or First Class seats with payment of the full applicable accommodation charges.

Union Station (KCY) is located on 30 W. Pershing Rd., Kansas City, MO 64108.

Union Station and the Hyatt Regency are connected by The Link. It is an elevated pedestrian walkway, which is weather-protected and offers lighted access between hotels, office buildings, and the Crown Center Shops.

Shuttle Service: SuperShuttle provides transportation to and from the airport and Hyatt Regency Crown Center. For more information, call 1-800-622-2089, ext 2.

Cab Service: Local cab company is Yellow Cab Taxi Service, 816-471-5000.

Bus Service: The JO is a bus service to Kansas City, Missouri and Kansas, and Johnson County.

Get ready for America's emerging green economy.

Interest in energy efficiency, peak oil, and global warming is at an all time high. Even in these tough economic times, there is hope that practical, workable solutions will finally prevail. The simple truth is that American homes are inefficient users of energy. Careers and programs that incorporate green technologies, building science training, and energy retrofits align with our government's new efforts to help American's find good paying jobs in their local communities.

Use the know-how you gain and the connections you make at the conference to develop an important career path that is expected to provide high-growth opportunities for many years to come.

KEYNOTE SPEAKERS

Tuesday, April 28, 8:30 AM – 9:40 AM, Keynote Address Brace for the Oil Price Boomerang (but Natural Gas will be Different)

The stage is set for wide deployment of energy efficiency services. Prepare to ramp up! We are in the beginning stages of the transition from a cheap, abundant energy economy to one in which energy conservation will be increasingly important. Yes, speculation helped oil prices overshoot in July 2008, but the oil price crash of last fall overshoot to the downside as well. Short-term demand destruction is leading to long-term supply destruction. That means high prices will ambush us again, probably within a year or two.

Steve Andrews is a co-founder of the Association for the Study of Peak Oil - US affiliate (ASPO-USA). ASPO-USA is a non-partisan, non-profit research and public education initiative organized to address the USA's peak oil and natural gas energy challenges.

Luncheon Presentation Stimulus and Energy Policy Impacts on Home Retrofit Network

Two million homes will be weatherized with the Federal Stimulus Package. Home energy efficiency retrofits are key national policy strategies for job creation and US energy independence. Hear how the Stimulus Package and new energy policies are rolling out from Washington.

Gil Sperling, Director, Weatherization and Intergovernmental Affairs, US DOE (invited)

SHORT COURSES & SPECIAL SESSIONS

MONDAY FULL DAY (MFD) SHORT COURSES & SPECIAL SESSIONS 8:00 AM - 5:30 PM	
MFD HP	National Home Performance with ENERGY STAR® Symposium (Special Event) - <i>Chandler von Schrader, +, +</i>
MFD HH	Healthy Homes Specialist Certification Course & Exam (Special Session) - <i>Tom Neltner</i>
MFD 01	The Devil in the Details: Superinsulating Existing Home Walls (registration limited) - (<i>Linda Wightingon, Moderator</i>), <i>Paul Cotter, David Heslam, Katrin Klingenberg, +</i>
MFD 02	Achieving Quality in a Home Performance Business - <i>John Tooley</i>
MFD 03N	Sizing up Duct Leaks: From CFM 50 to Energy Savings - <i>Bob Davis, Krista Egger</i>

MAM	MONDAY MORNING (MAM) 8:00 AM - 12:00 Noon
MAM 04	House as a System - <i>David Keefe</i>
MAM 05	Best Ventilation Practices for High Performance Homes - <i>Don Stevens</i>
MAM 06	Home Performance Testing & Contracting - <i>Anthony Cox, Dick Kornbluth</i>
MAM 07N	Air Sealing Multifamily Buildings (In-field) - <i>Steve Tratt</i>
MAM 08	House Depressurization & Resilient Combustion Venting (Advanced) - <i>Tom Andrews, Jim Fitzgerald</i>
MAM 09	Finding & Preventing Cracked Heat Exchangers - <i>Eric Kjelshus</i>
MAM 10	Solar Thermal Design & Installation - +
MAM 11	ACCA QI Specifications - +
MAM 12N	Densepack Sidewall Insulation Installation (In-field) - <i>Bill Hulstrunk, +</i>

MPM	MONDAY AFTERNOON (MPM) 1:30 PM - 5:30 PM
MPM 04	Creative Comfort: Beyond Thermostat Set Point - <i>Rana Belshe, +</i>
MPM 05	Mac on Mold - <i>Mac Pearce</i>
MPM 06N	Delta Q: Duct Leakage Testing (In-field) - <i>Paul Francisco, Collin Olson, Iain Walker</i>
MPM 07N	Air Sealing That Works: Products & Priorities (In-field) - <i>Keith Williams</i>
MPM 08	Outside the Box: Affordable Energy Efficient Construction Techniques - <i>Bill Hanlon</i>
MPM 09N	Using an IR Camera (In-field) - <i>Bret Monroe</i>
MPM 10	Photovoltaics: Design & Installation - <i>Mike Stangl</i>
MPM 11	Emerging HVAC Technologies for Retrofit & New Construction - +
MPM 12N	CO Testing & Diagnostics (In-field) - <i>Rich Moore</i>
MPM 13N	CertainTeed Fiber Glass Plant Tour (In-field) - <i>John Larkin, Ron Rodvelt, +</i>
MPM 14	Apples & Oranges: An Audit is Not a Rating & A Rating is Not an Audit (Energy Software Discussion) - <i>Mike L'Ecuyer, Paul Norton, Greg Thomas</i>

EVENING SESSIONS (TEVE - WEVE)	
TEVE 1	Thousand Home Challenge - <i>Judy Roberson, Charles Segerstrom, Linda Wightingon</i>
TEVE 2	Home Performance Media Forum - <i>Chris Compton, Chris Dorsi, Henry Gifford, Jim Gunshinan, Tom White, Peter Yost, +</i>
WEVE 1	Game Changing Innovations in Energy Efficiency - +
WEVE 2	Why LEED® Buildings Use More Energy Than Comparable Buildings, & How Serious Practitioners Can Avoid the Same Results - <i>Henry Gifford</i>

ThPM	THURSDAY AFTERNOON (ThPM) 1:30 PM - 5:30 PM
ThPM WD	Report on US DOE Workforce Summit Findings Workplace Development Panel: Scaling up with Partnerships - <i>Patricia Plympton (Moderator), Panelists: Ed Pollock, USGBC KC Chapter, Veterans Green Jobs, +</i> Breakout Sessions on Training, Standards, Curriculum, Collaborative Programs
ThPM 01	Conducting an Infrared Inspection: Based on the New RESNET/BPI Standard - <i>John Snell</i>
ThPM 02	Hydronics - <i>Henry Gifford</i>
ThPM 03	Path to Net Zero Fossil Carbon (p2z) - <i>William Hurrell</i>
ThPM 04	Software Analysis Tools for Home Performance Contracting - <i>Steve Byers, Ethan MacCormick, Ori Skloot</i>
ThPM 05	Moisture Physics (Advanced) - <i>Joe Lstiburek</i>

SPECIAL EVENTS	
JAZZ BBQ	Jazz & Bar-b-que Tour Tuesday, April 28 - 7:30 PM busses load Wednesday, April 29 - 7 PM busses load <i>Times are subject to change</i>

FRIDAY FULL DAY SPECIAL SESSIONS	
	TBD

In-field sessions are shaded in green

For information on session descriptions, presenter biographies, and more, visit www.affordablecomfort.org.

What does MAM 12N mean?

M = Monday 12 = Course Number
AM = Morning N = In-field

MAM 12N is an in-field short course that is being held on Monday morning.
+ = additional presenter(s) to be determined
() = Session Leaders

Monday, April 27, & Thursday, April 30

New this year! Short courses are included in the conference price! These courses offer half or full-day in-depth information on a single topic, featuring small class sizes. The in-fields will fill up quickly, and space is limited. Be sure to pre-register early for the in-fields to ensure your place. Descriptions for short courses will be available on our website at www.affordablecomfort.org.

Tradeshow Tuesday, April 28 – Wednesday, April 29

Find effective solutions and build relationships at the 2009 ACI Home Performance Conference Tradeshow. For two days, you will have access to the nation's leading manufacturers showcasing cutting-edge products and technology. Meet face-to-face with companies who provide the tools you need to work smarter.

BPI Certification Examinations

Written Examination: Monday, April 27, 7:30 AM
Field Examination: Monday, April 27, 8:00 AM until Completion

BPI will offer its written and field certification examinations, for Building Analyst, Envelope, and Heating. Each examination set is crafted to ensure that the credential holder can properly evaluate critical performance parameters of a building that will impact health, comfort, safety, reliability, durability, efficiency, and performance.

Pre-registration is mandatory. Space is limited. Deadline to pre-register: Monday, April 13.

For additional information and an application to register, please email randerson@bpi.org or call (877) 274-1274 ext 108.

Registration: \$500 per certification designation (both written and field exams)

Poster Sessions

Poster sessions are scheduled throughout the conference, available during tradeshow hours. Displays will represent a portion of the outstanding programs, concepts, or research results in use today. Presenters will be on hand to answer questions concerning development, use, and access of the poster contents.

Be sure to check out the special posters from Kansas City and the surrounding region and discover the latest in green, energy efficient, sustainable construction, retrofits, and rehabs, as well as programs implemented in the area.

Thursday, April 30 Green Jobs Development Day

Hear the report of the DOE Workforce Development Summit on Thursday, April 30. Explore the critical issues of green workforce training, curriculum, and standards development with the organizations that are leading the way. See how the energy efficient home retrofit workforce is central to our national goals for sustainability and climate action agenda. Join the coalition that is building the new green economy and contribute ideas to grow the Nation's workforce for the Twenty-first Century.

2009 ACI HOME PERFORMANCE CORE CONFERENCE TRACKS / SESSIONS

APRIL 28, 2009 - TUESDAY

TRACK	7:00 - 8:20 AM	8:30 - 9:40 AM	9:40 - 10:05 AM	SESSION 1 10:05 AM - 11:45 AM	11:45 - 1:25 PM	SESSION 2 1:30 PM - 3:10 PM	3:10 - 3:35 PM	BREAK	SESSION 3 3:35 PM - 5:15 PM	5:15 - 7:15 PM	TRACK
Fundamentals (FUND)	COFFEE / EXHIBITS Keynote Address BREAK	EXHIBITS	BREAK	The House as a System <i>David Keefe</i>	LUNCH / EXHIBITS	Understanding Building Pressures <i>Anthony Cox</i>	BREAK	EXHIBIT HALL	Understanding Heating & Cooling Loads <i>Armin Rudd</i>	EXHIBIT HALL	Fundamentals (FUND)
Year Round Comfort (COMF)				Mechanical Humidity Control Research Update <i>Subrato Chandra, Armin Rudd</i>		Tailoring Air Conditioning For Your Climate <i>(Harvey Sachs), Tom Downey, Hugh Henderson, +</i>			Creating Comfort Zones <i>Skip Hayden, Tamasin Sterner</i>		Year Round Comfort (COMF)
Building Shell (SHLL)				Next Generation of Air Sealing in Existing Houses <i>Henri Fennell, Keith Williams</i>		Basement Insulation <i>Dick Kornbluth, Brad Turk</i>			Cool Roofs for a Warming Planet <i>Marcus Bianchi, Liz Robinson</i>		Building Shell (SHLL)
What's An Audit (AUD)				Energy Performance Scoring of Existing Homes <i>Michael Blasnik, Eric Storm</i>		What's an Audit?: Simple through Comprehensive <i>Ethan MacCormick, Tamasin Sterner</i>			RESNET Existing Homes Audit Standard <i>Steve Baden, +</i>		Diagnostics (DIAG) <i>Dave Abrey</i>
In Hot Water (H ₂ O)				Hot Water Forum: Heating, Distribution, Water Use <i>(Harvey Sachs), Skip Hayden, Gary Klein, Jim Lutz</i>		Solar Water Heating - The Real Deal <i>Mike Rogers</i>			Tank Vs. Tankless Gas Water Heaters - How's a Person to Choose? <i>William Hoover, Gary Klein</i>		HVAC (HVAC)
Green & Sustainable (SUST)				What is Green: Principles, Process, & Products <i>+</i>		Integrating the Technical, Design, & Lifestyle Components of Sustainable Design <i>Jane Thompson</i>			Walking the Talk: Merging Energy Efficiency & Renewables <i>David Bolt, Larry Weingarten</i>		Beyond Business as Usual (BEY) <i>Linda Wigington</i>
Healthy Homes (HEAL)				Understanding & Solutions for Water Intrusions in Crawl Spaces <i>Douglas Ness</i>		Challenge of Applying ASHRAE 62.2 in Existing Homes <i>Rick Karg, Robert Parkhurst</i>			Measured Crawl Space Performance in Multiple Climates <i>David Hales, Maria Mauceri</i>		Healthy Homes (HEAL)
From Challenges to Opportunities (OPP) <i>Russ Rudy</i>				Greensburg - A Lesson in Cooperation <i>Brian Wendland, Kathleen Wendland</i>		Dealing with Disasters: Deconstruction, Reclaim, & Reuse <i>Don Reck, Ted Reiff</i>			Energy Performance Rehabs <i>Doug Bruggeman, Orvall Howell</i>		Affordable Housing (HOUS)
Mobilizing Citizens, Communities, & Companies (MOBL) <i>Mike O'Brien</i>				Community Education: Methods & Media <i>Tamasin Sterner, +</i>		The Energy Smackdown - A Community Outreach Strategy for Reducing Carbon Emissions <i>Donald Kelley, +</i>			Moving from Energy to Carbon <i>Sean Penrith, Gregory Thomas, +</i>		Mobilizing Citizens, Communities, & Companies (MOBL) <i>Mike O'Brien</i>
Getting the Money (MON) <i>Russ Rudy, Jeffrey Summerville</i>				Financing Home Performance with Utility Bill Savings <i>Brian Dreiling, +</i>		No House Left Behind: Delivering Energy Efficiency to Every Home <i>Alice La Pierre, +</i>			New Ideas in Funding Energy Efficiency Efforts <i>Conrad Metcalfe</i>		Multifamily (MULT)
Build Your Business & Profit (BUS) <i>Mike Rogers</i>	Different Home Performance Business Models <i>(Chandler von Schrader), Dan Kartzman, Keith Williams</i>	Contractor Success Stories & Guerrilla Marketing Techniques <i>(Ed Thomas), Matt Golden, Larry Taylor</i>	Eight Simple Things to Jump Start Your Business <i>Mike Rogers</i>	Build Your Business & Profit (BUS) <i>Mike Rogers</i>							
Program Implementation (PROG)	Water: Changing Programs & Policies <i>John Koeller, Jed Scheuermann</i>	ENERGY STAR® Homes: Predictions, Performance & Real World Results <i>Michael Blasnik, Ben Hannas, Shaun Hassel</i>	Experiences with the KC Power & Light Cool Homes Program <i>Tom Downey, Mike Schiffman</i>	Codes & Standards (C&S) <i>Doug Anderson</i>							

+ Presenter to be confirmed

() Session Leader

Sessions as of 2/16/09. Subject to change.

Conference Registration includes:

- New this year! Short Courses are included at no extra charge!
- Keynote address
- All Workshops, Monday - Thursday
- Tradeshow, Tuesday, and Wednesday
- Refreshments, Monday - Thursday
- Light Breakfast and Lunch on Tuesday and Wednesday
- Exhibitor Receptions on Tuesday and Wednesday
- Evening Sessions

Green Services

Take advantage of these green services provided by the Hyatt:

- Bins for recycling paper, glass, and aluminum
- Use of non-disposable cups and glasses for meeting rooms
- Guest linen and towel program to reduce the waste of water and power resources

+ Presenter to be confirmed () Session Leader Sessions as of 2/16/09. Subject to change.

Apply for an ACI Conference Scholarship

Deadline: Monday, March 30

The ACI Memorial Scholarship Fund is a tribute to the leaders in the building science field who have championed the "whole house" approach. To apply, write an essay stating how you will advance home performance through what you've learned at the conference and / or in your work. The applicant who shows the most promise as an advocate for house as a system principles will receive up to \$1,500 to cover the cost of registration, travel, and lodging.

Letters of application are due to ACI by Monday, March 30, 2009, and may be emailed to hpperrine@affordablecomfort.org. The winner will be announced on Friday, April 17.

Ways to Save

Early Bird Registration

Full core conference fee is \$725. Register for the core conference before **March 30, 2009** and pay \$625, a savings of \$100.

Working Scholars

"Working Scholarships" are available.

Scholarship recipients work during the conference week in exchange for a reduced registration fee. For more information, call 800-344-4866, ext 14 or 29.

Ways to Register

Online: Visit www.affordablecomfort.org and use our online registration form.

Fax: Fill out your registration form and fax it to 724-627-5226.

Mail: Post your registration form to ACI, 32 Church St., Suite 204, Waynesburg, PA 15370

Cancellation Policy

There is a non-refundable cancellation fee of \$195 for each registration cancelled. Requests for refunds must be made in writing and received by ACI by March 30, 2009. No refunds will be granted after that date.

ACI Home Performance Conference April 27 – May 1, 2009

Change is coming.

Prepare for a new energy future at North America's premier educational event for green, high performance homes.

- Explore solutions and practices that can bring about deep energy reductions while increasing comfort
- Find out about green, energy-focused jobs that reduce our carbon footprint and the cost to heat and cool our homes
- Learn from outstanding presenters, and gain access to the most dedicated professionals in the home performance industry
- Attend four days of sessions and networking, plus a two-day tradeshow featuring the latest techniques, materials, and tools

Affordable Comfort, Inc.
32 Church Street
Suite 204
Waynesburg, PA 15370

ACI is a non-profit educational organization providing unbiased, cutting-edge conferences focused on promoting home performance, green building, and "house-as-a-system" skills for all building trades, housing groups, and program professionals. For over twenty years, ACI has transformed how homes are built and remodeled. ACI's vision is that every family has a green home that is energy efficient, durable, comfortable, affordable, healthy, and safe, and every community has access to and values skilled home performance professionals and services.
