

Why You Should Attend

This will be the most comprehensive Termite Workshop you ever will attend. The WDI inspection is your company's largest exposure for liability. With the constant advances in technology and inspection equipment, companies now are at greater risk for lawsuits than ever before.

This workshop will focus on the inspection and how to limit your risk for a lawsuit.

Who Should Attend

ALL PEST & TERMITE CONTROL COMPANIES
ALL HOME INSPECTION COMPANIES

We designed this workshop so employers can send their service staff for one session and send management and customer service staff to another session.

My Promise To You

When you attend my WDI Workshop, you become my client. If you are ever involved in a WDI lawsuit, I cannot be called as an expert witness against you.

Workshop Presented By

Barry H. Stangel, President of the Pest Management Training & Consulting Center, located in Suffern, NY.

My career in the Pest Management Industry spans almost 50 years. During the past 28 years, I have trained over 3000 Pest Management and Home Inspection professionals with a single goal: to keep them out of trouble.
