

First Choice Home Inspection Software

October 2007

Announcing the release of Version 5.0, Inspection Software

New, from the folks at First Choice, is a full-featured software package with features costing thousands of dollars, for just **\$449.⁹⁵**

If you have wanted to increase your efficiency but have been put off by sky-high software prices, now you have a choice. If you want to free yourself from a bulky laptop in the field, First Choice has a product for you!

Check out these features for version 5.0:

- Runs on any Windows format (including Vista!)
- Price includes both PC and PDA programs
- Create 3 types of report:
 - Residential, Commercial, and 4-Point (short report)
- Add any number of custom systems, rooms, features, or areas
- Over 3,300 preloaded comments included in check mark type format
- Checklist on PDA program to prevent missed items in the field
- Change text color, add logos, and customize cover page and invoices
- Add unlimited color photos in their respective section (not bunched at the end of the report)
- Comments you type in red are auto-moved to the Summary page
- Adjust margin controls to allow for a binder
- Creates report in PDF format for easy emailing
- Note pad feature saves your common comments/phrases for fast entry
- Notes and Summary comments fully editable for Narrative report fans

Special offer for NACHI Members...
